- The Quackenbush Modification, 1986
- The Abbott Amendments, 1999

APEC Objectives

1. To promote, develop and maintain high standards of endodontic research, teaching and clinical practice in the Asian Pacific Region and
2. To cultivate and foster closer professional relationships within the Asian Pacific Region

Reasons for joining APEC

1. To keep your country involved in regional endodontics
 2. To promote your country in the Newsletter by way of articles on Endodontics
 3. To work towards achieving high quality endodontics by means of advancing education through attending our meetings-if fees are charged then individual members could get a reduced fee.
 4. To help set up a register of Endodontic specialists who are Board-registered in their country-this register could be of value to you if you have patients traveling.
- of Endodontics in the Asian Pacific region.
7. To help you keep in touch
 5. To receive the Newsletter.
 6. To enable you to feel you are helping the development
 8. The subscriptions small and the knowledge gained can help you to be a leader in your country.

Business Registration

In November 1989, APEC and its Constitution were registered with the Registrar of Societies in Hongkong

In conjunction with the Asian Pacific Dental Congress (APDC), a half day lecture meeting was held attended by approximately 150 people. This was followed by the 1st. Biennial Meeting with 8 countries represented. The Constitution was ratified in this meeting.

AN UPDATE ON THE ASIAN PACIFIC ENDODONTIC CONFERENCE

By Dr. John M. Booth, President, Australian Society of Endodontic, Inc.

I attended the Executive Meeting of this Confederation which was held in New Delhi on January 27, 1988 in association with the first general meeting of the Indian Endodontic Society. We became founder members and the Constitution was signed by the representatives of the countries present.

The Confederation has now established contact with endodontic societies, study groups, or dentists anxious to form study groups in the following countries-India, Bangladesh, Indonesia, Australia, New Zealand, Singapore, Malaysia, Thailand, Philippines, Hong Kong, Korea and Japan.

It is interesting to note that the Confederation has already played a significant role in setting up some of these groups. The Indian Endodontic Association was formed

Dr. & Mrs. Booth with Dr. Vizcarra at the Lobby of Hyatt Hotel, New Delhi, India.

4. Second Scientific Conference

Seoul, Korea, April 26, 1989

In conjunction with the APDC, a half day Scientific Meeting with 50 participants was held followed by the 2nd. Biennial Meeting with 8 countries represented.

NEWSLETTER No. 1

APRIL 1993

From the desk of the President

Welcome to Kuala Lumpur and the joint meeting of A.P.E.C. with the Malaysian Endodontic Society. We do thank the Malaysian Endodontic Society for setting up this meeting and the executive of the Asian Pacific Dental Congress for allowing us to hold this meeting today. We hope this cooperation is a foretaste for the future and similar meetings of APEC. You will see that we have an International group of speakers from our region who have all come to this meeting to give us endodontic knowledge at no cost and without any recompense to themselves. Gentlemen - on behalf of us all - we thank you.

For those who are not familiar with our group I will give a very brief summary. After preliminary meetings going back to 1985 the A.P.E.C. was set up at the Asian Pacific Dental Congress meeting in New Delhi in 1988 at a joint meeting with the newly formed Indian Endodontic Society. Meetings have followed in Seoul (1989) and Auckland (1992). Our Constitution which is registered in Hong Kong following a lot of fine work by our second President Dr. Dick Walker indicates the objectives of our group.

1. To promote, develop and maintain high standards of endodontic research, teaching and clinical practice in the Asian Pacific region.

2. To cultivate and foster closer professional relationships of endodontic practitioners within the Asian Pacific region.

It has been our hope that we could get a Newsletter going on an annual basis so that we have a media for detailing the endodontic progress and news in the region. Our first President and prime mover Dr. Ernie Vizcarra of the Philippines always had in mind this means of getting to know each other better. It is indeed, nice to know that our next meeting will be in Manila and we hope to arrange a similar meeting to the one here.

A Newsletter is dependant on news from each country and I urge you all to consider submitting an article of endodontic interest from your country along with perhaps a photo we can use. We are geographically a big region of the world but that is no reason to stop us communicating and developing friendships which can only lead to better International understanding in the troubled world of today.

In the meantime, we look forward as an executive to meeting many of you at the meeting in April 23rd and do consider planning a visit to Manila in February, 1994.
